

Phase-3 Practice Project

Implement Spring Security with Authentication

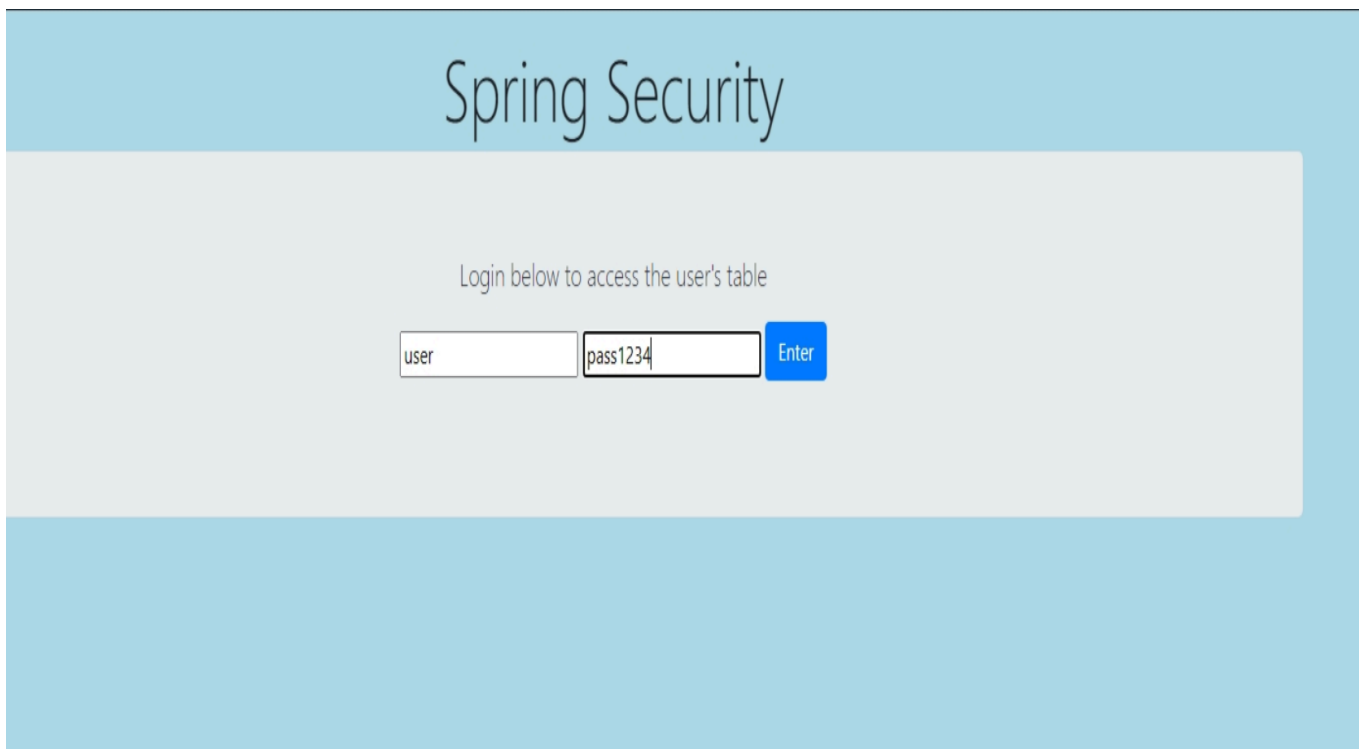

Output

Spring Security

Login below to access the user's table

This screenshot shows the initial Spring Security login page. It features a light blue header with the text "Spring Security". Below the header is a light gray rectangular box containing the login instructions "Login below to access the user's table". At the bottom of this box are three input fields: a text box labeled "Name", a text box labeled "Password", and a blue button labeled "Enter".

Spring Security

Login below to access the user's table

This screenshot shows the same Spring Security login page as the previous one, but with the login fields filled out. The "Name" field now contains the text "user" and the "Password" field contains the text "pass1234". The "Enter" button remains blue and is still present to the right of the password field.

Search for a User By ID

Login Success

View user table [here](#)

Enter an id from the table:

Users

ID	Name	Email	Password
1	user	test@gmail.com	pass1234

Successfully Updated User

User ID: 1

ID	Name	Email	Password
1	userTest	uT@gmail.com	pw1111
