

Phase-2 Practice Project: Assisted Practice

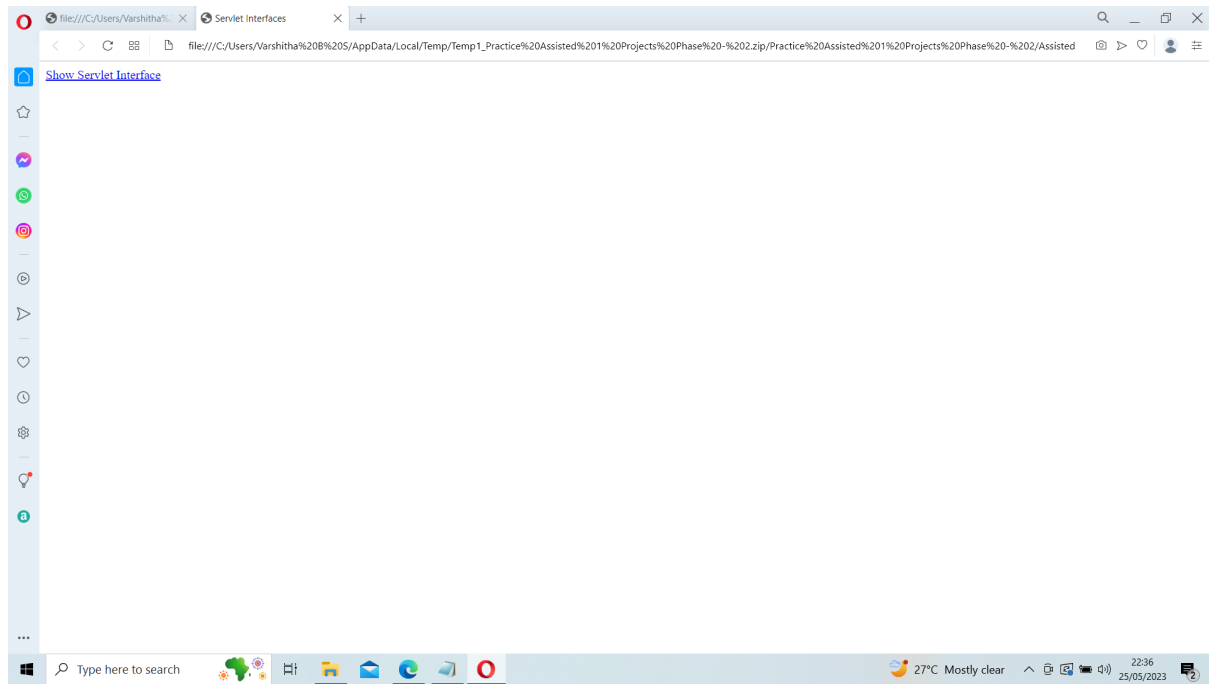

4. Write a program to demonstrate the concept of Servlet Classes and Interfaces

Web.xml

```
<?xml version="1.0" encoding="UTF-8"?>
<web-app xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance"
xmlns="http://xmlns.jcp.org/xml/ns/javaee"
xsi:schemaLocation="http://xmlns.jcp.org/xml/ns/javaee
http://xmlns.jcp.org/xml/ns/javaee/web-app_4_0.xsd" id="WebApp_ID" version="4.0">
  <display-name>Servlet Interface</display-name>
  <welcome-file-list>
    <welcome-file>index.html</welcome-file>
    <welcome-file>index.htm</welcome-file>
    <welcome-file>index.jsp</welcome-file>
    <welcome-file>default.html</welcome-file>
    <welcome-file>default.htm</welcome-file>
    <welcome-file>default.jsp</welcome-file>
  </welcome-file-list>
  <servlet>
    <servlet-name>InterfaceDemo</servlet-name>
    <servlet-class>InterfaceDemo</servlet-class>
  </servlet>

  <servlet-mapping>
    <servlet-name>InterfaceDemo</servlet-name>
    <url-pattern>/interface</url-pattern>
  </servlet-mapping>

</web-app>
```

Mainprgm:

```
import java.io.*;
import javax.servlet.*;
import javax.servlet.annotation.WebServlet;

/**
 * Servlet implementation class InterfaceDemo
 */
@WebServlet("/InterfaceDemo")
public class InterfaceDemo implements Servlet {

    ServletConfig config=null;
    public void init(ServletConfig config){
        this.config=config;
        System.out.println("Initialization complete");
    }

    public void service(ServletRequest req,ServletResponse res)
    throws IOException,ServletException{
        res.setContentType("text/html");
        PrintWriter pwriter=res.getWriter();
        pwriter.print("<html>");
        pwriter.print("<body>");
        pwriter.print("In the service() method<br>");
        pwriter.print("</body>");
        pwriter.print("</html>");
    }
}
```

```
}  
public void destroy(){  
    System.out.println("In destroy() method");  
}  
public ServletConfig getServletConfig(){  
    return config;  
}  
public String getServletInfo(){  
    return "This is a sample servlet info";  
}  
}
```

Output:

[Show Servlet Interface](#)

In the service() method
